University profiles 2025

universitiesaustralia.edu.au

Universities Australia works hard to ensure Australia has a strong higher education and research sector to support the nation's future.

We champion the role universities play in generating vast social, economic and cultural value for the nation and the rest of the world. We advocate for higher education policy settings that are in the national interest.

On behalf of our 39 member universities, we actively collaborate with policy makers and political leaders at all levels of government, engage directly with the community and work closely with international partners to help support Australia's world class university system.

For more information, please visit the Universities Australia website: universitiesaustralia.edu.au

THE UNIVERSITY
of ADELAIDE

At the University of Adelaide, we unite and serve those striving to change the world — and themselves — for the better. This is a place where you can make history.

Established in 1874, we're home to over 22,000 equivalent-full-time students and 3,000 staff, all working to create progress. Ours is a university of outstanding quality — ranked 82nd in the world* — in the heart of one of Australia's most liveable cities†.

Relentlessly progressive

Adelaide has always broken new ground. We were Australia's first university to welcome female students. The first offering science and business degrees. The first with a conservatorium of music.

Among those who've studied, taught, or conducted research here are Australia's first: female prime minister; space-walking astronaut; Indigenous Rhodes Scholar; and female Supreme Court judge and state governor. Not to mention five Nobel Prize winners.

Exceptional research and education

As a member of Australia's prestigious Group of Eight research-intensive universities, we're rising to global challenges with research universally rated world-standard or above^.

In fact, our output is recognised as 'well above' world standard in 41 distinct areas. These range from space sciences, materials engineering and AI, to cardiorespiratory medicine, crop production and environmental science.

As a teaching university, we're ranked among the top 100 globally in 14 subject areas‡ including dentistry, agriculture and forestry and veterinary science.

We also lead our state in graduate employability**. Our degrees combine deep discipline knowledge with broad, transferable skills, ensuring graduates are well prepared for multidimensional careers in the future workforce.

*QS World University Rankings, 2025. †Economist Intelligence Unit, 2022. ^Excellence in Research Australia, 2018 (the most recent assessment date). ‡QS World University Rankings by Subject (2024). **QS Graduate Employability Ranking, 2022.

Adelaide University

From 2026, we will begin a new chapter as we combine our strengths and legacies with the University of South Australia to become Australia's new for-purpose university, Adelaide University. Contemporary and comprehensive, this is a new university for the future that will transform education, student experience, research and innovation with impact that will transcend borders around the world.

An ACU education is grounded in the Catholic understanding of faith and reason working together in the pursuit of knowledge, promotion of human dignity, and advancement of the common good.

We aim to transform lives and communities. Students are challenged to look beyond the classroom, solve real-world problems, develop their own search for meaning and cultivate strong professional ethics. They are invited to stand up for people in need and causes that matter.

Opportunities for personal and professional growth are critical to ACU. This is a university of service — so much so that it is built into the curricula. All ACU courses offer work placements, internships or volunteering opportunities.

High-impact research — with social, cultural and economic benefits — is core to our institution. Our research and enterprise activities develop innovative solutions to issues impacting human dignity and the common good. Through ethically informed research we deliver positive change across ACU, industry, community and government.

We foster academic collaboration and engage with local and international partners to enable the exchange of knowledge and skills and develop dynamic educational and research initiatives. We build healthy social partnerships, assisting communities in actively shaping initiatives that directly impact them.

ACU is a university for everyone. Like all Catholic institutions, the university is inclusive and supportive of everyone, every day — regardless of their faith, tradition or circumstance.

ACU is a young university making a significant impact. Ranked in the top 10 Catholic universities*, we're also a leader in employability with 95 per cent of our graduates employed**. The university has seven campuses around Australia, a campus in Rome, Italy, and an online campus — ACU Online.

Since 1946, ANU has been at the forefront of innovation and discovery, shaping Australia's future through groundbreaking research.

Our strong connection with the Australian Government enables our researchers to shape national policy and address global challenges.

At the same time, our students learn from renowned academics in small classes and collaborate on cutting-edge projects.

Ours is a diverse community open to everyone with the talent and passion to succeed.

Australian National University students:

- enjoy an exciting campus life with over 110 clubs and societies and a variety of vibrant student residences, forming lifelong friendships along the way
- study alongside leading researchers in cutting-edge labs and facilities such as our heavy ion accelerator, the southern hemisphere's fastest supercomputer, Gadi, and Mount Stromlo Observatory
- gain practical experience through overseas study programs and internships unique to our location in Canberra, the nation's capital.

Dedicated to a deliberately different, personalised approach to education, Bond University is Australia's leading independent, not-for-profit university. Bond is driven by a desire to produce standout graduates with the skills to transform industries and lead the charge across sectors.

Bond students receive a unique educational experience founded on smaller class sizes, abundant opportunities for connection and professional development, and accelerated degrees that put them at the forefront of a rapidly changing career landscape. Throughout their time at Bond, students also have access to world-class academics with real industry experience who are personally invested in their personal and professional growth.

A personalised student experience

Bond offers Australia's best student-to-teacher ratio of 11:1, as recognised in the 2023/2024 Good Universities Guide. Students learn in small classes and with the benefit of personal attention from academics and dedicated support staff. Bond undergraduate students are the most satisfied with their educational experience out of all major universities in Australia, according to the federal government's 2023 Student Experience Survey.

Employable, future-focused graduates

Bond is proud to produce highly employable graduates with global outlooks and relevant, transferrable workplace skills. One of the ways the university accomplishes this is through a strong employability focus embedded into every degree. Students have access to unlimited lifelong career guidance through the Career Development Centre, which can help with setting up internships and work experience, provide industry engagement opportunities, and even interview and resume writing tips. There's also the Beyond Bond professional development program, the Core Curriculum — in which all undergraduate students learn key 'soft skills' such as leadership, communication and critical thinking — and the co-curricular entrepreneurship program, Transformer.

UNIVERSITY OF CANBERRA

The University of Canberra is Canberra's own university, and an integral part of Australia's capital.

This shapes our civic mission — conducting innovative research with real world impact to meet community needs, bolstering the workforce of the capital and surrounding regions, and equipping future leaders with professional careers and lifelong connections.

UC takes pride in its unique focus on community health, and drives exciting new frontiers in science and technology. We live and breathe sport, which is the heart of our community, and we provide a home for Canberra's creative industries.

For over fifty years, UC has been instrumental in building an education workforce for the advancement of future generations.

Our expertise in business, government and legal frameworks supports the ACT region's economic growth, the nation's political acumen and the overall evolution of law.

UC ensures student success through progressive teaching, impactful research, and strong ties with industry.

Our students enjoy immersive learning that incorporates real-world experience through internships and placements and amplifies employability outcomes.

Our graduates are set up for stellar career opportunities, endorsed by our number one ranking for full-time employment in Canberra (Good Universities Guide, 2025). UC is ranked in the top 20 of the Times Higher Education (THE) Young University World Rankings (2024), and in the top 11% globally for reducing inequalities in the THE Impact Rankings (2024).

Our location in Australia's capital has shaped UC as progressive and dynamic — connected to the community and committed to building a sustainable future.

Founded in Rockhampton in 1967 as the Queensland Institute of Technology (QIT) Capricornia, CQUniversity Australia achieved full university status in 1992. Today, it serves more than 30,000 students across Australia, offering both online and on-campus study options.

CQUniversity is Queensland's only dual sector university and delivers more than 250 education and training offerings, from short courses to research higher degrees. Study areas include apprenticeships, trades and training, business and law, arts, education, humanities, community services, aviation, engineering and built environment, health, nursing, information technology, sport, science, environment, and work and study preparation.

The University values access and inclusion, with a diverse student cohort made up of some of the highest ratios of students from disadvantaged, mature age, First Nations, and first-in-family backgrounds. As a pioneer in the delivery of distance education, CQUniversity continues to be a leader in online study with around half of the current student cohort made up of students studying off-campus, many of whom are based in rural and remote areas.

This strong focus on participation and accessibility, has seen CQUniversity firmly establish itself as one of the largest universities based in regional Australia, and one of the only universities with a nationwide reach with campuses in 11 locations and direct partnerships with regional university centres.

After more than half a century working with stakeholders in regional Australia, CQUniversity is a renowned research institution in several key disciplines and the benchmark leader for how universities should engage and collaborate with communities and industry. The University's focus is oriented towards impact and real-world outcomes, with the purpose of providing solutions to challenges and identifying new opportunities for advancement in regional Australia and beyond.

With our home and our heart in the Northern Territory, we embrace the inclusive, resilient, and courageous spirit of the Territory. We are a deeply connected university, working in close partnership and collaboration with First Nations people, our communities, industry and government.

We are the only university based in the Northern Territory, which gives our teaching and learning experience a flavour that is unique in Australia's education landscape. Our connection spans beyond the Northern Territory through our digital and remote delivery, and internationally through our world-leading research.

We are proud to be Australia's first dual-sector university and the largest training provider in the Northern Territory, building a skilled workforce while also providing pathways into higher education.

With ten campuses and centres across Australia, CDU can deliver unique student experiences and offer training where it's needed. Our on-country trainers engage with students no matter where they live, often driving thousands of kilometres to deliver training and support in the heart of Australia and its remote communities.

Flexibility and supportive learning experiences are key to engaging with our students. CDU has one of the most diverse student cohorts that includes more than 20% First Nations students. Our success in achieving this diversity can be attributed to providing a wide range of study options, personalised support and bringing mentors and community leaders into the university.

Research outcomes at CDU are strongly aligned with the United Nations' Sustainable Development Goals. Our research is relevant, impactful and attracts research students who are focused on solving tough problems. It's one reason why CDU has an eminent research reputation in environment and ecology, energy, tropical health, indigenous issues, sustainable business, and technology.

We are proud to be making a difference in the Northern Territory and beyond, and we'll continue to innovate and foster world-changing ideas.

**Charles Sturt
University**

At the heart of Charles Sturt University's approach to education is the Wiradjuri phrase *yindyamarra winhanganha* — 'the wisdom of respectfully knowing how to live well in a world worth living in'.

Charles Sturt is Australia's leading regional university, offering more than 250 courses delivered on a network of regional campuses and online. Charles Sturt is also Australia's most experienced online university and the nation's online university of choice.

Charles Sturt has a proud history of partnering with industry and businesses to benefit our students and the local community.

Students

Charles Sturt has been Australia's leading public university for undergraduate full-time employment for the last eight years, and has an outstanding record of graduating First Nations students and those from rural and remote backgrounds. The University's strong links to industry connect students with relevant, real-world experience.

Research

Charles Sturt University has a social responsibility to use its expertise to support and deliver outcomes that foster prosperous and resilient regional communities. Our goal is to influence and contribute to the economic, social, and environmental sustainability and wellbeing of our regional, national, and global spheres.

People

Central to the University's strategy is the goal to instil a culture of excellence across all aspects of the University's operations, fostering mutual support, empowerment and inspiration to collectively achieve excellence.

Social responsibility

Charles Sturt is a leader in sustainable practices, becoming the first Australian carbon-neutral university and ranking in the top five per cent of universities globally for climate action in the Times Higher Education Impact Rankings in 2024.

Curtin University

Ranked among the top one per cent of universities worldwide*, Curtin University is known for embracing innovation, building strong partnerships with industry and communities, and preparing career-ready graduates keen to create positive change.

Our student experience

We focus on providing a welcoming, supportive and immersive learning experience. Our students benefit from expert teaching, world-class facilities, and a wide range of industry-connected and global study opportunities. There is a strong sense of community on campus, with collaborative learning spaces, student clubs, and a variety of activities to help students feel involved and build lasting connections.

Research and innovation

From sustainable food production to digital transformation to exploring the expanses of space, Curtin's wide-ranging research is focused on driving positive change for people, our partners and the planet.

At the Curtin Institute for Energy Transition, we're bringing together multidisciplinary teams to reframe how we think about the urgent need to decarbonise the world's energy system. Australia's Resources Technology and Critical Minerals Trailblazer is leveraging our research expertise to accelerate the energy transition through enhanced critical minerals extraction and processing.

Our Commercialisation team collaborates with researchers, investors, and industry partners to evaluate the commercial potential of Curtin innovations and identify the best paths to bring them to market.

Our established reputation for innovation echoes our ambition to make tomorrow better for people all over the world.

Established in 1974, Deakin is one of Australia's most progressive universities, leading in the innovative use of digital technologies and online learning, and blending this capability across its distinctive campus precincts in Melbourne, Geelong, Warrnambool and India.

'Balanced excellence' in education and research

Deakin has achieved a balance of high-quality research with an education experience that is consistently rated as one of the best in the country.

For 14 consecutive years, Deakin has been rated number one for student satisfaction in Victoria. Deakin provides opportunities for learners at all stages of their lives and careers, enabling flexible and non-traditional pathways into education.

The university's four faculties offer a comprehensive range of courses across the arts, science, sport, nutrition, architecture, business, law, medicine, optometry, engineering, nursing, psychology and teaching.

Deakin has a thriving research culture known for its multidisciplinary collaborations and is rated in the top one per cent of universities in the world.

Community, government and industry engagement

Deakin emphasises mutually beneficial partnerships and real-world impact across its areas of strategic priority: health and wellbeing, smarter technologies, sustainability, society and culture, and building safe and secure communities.

Deakin's industry precincts provide an important link between technological innovation and successful industry outcomes.

A global university

Deakin is global in its outlook, activities and impact, with partnerships in 65 countries and offices in China, India, Latin America, Europe, Indonesia, Malaysia, Vietnam, Pakistan and Singapore.

Over 325,000 alumni live and work across the globe and their achievements are the best measure of Deakin's success.

Welcome to our university.

Edith Cowan OBE is an icon; one of Australia's most inspiring women.

She believed that education was fundamental to tackling social issues and was the key to growth, change and improvement. Edith influenced the course of education in Australia, paving the way for many people to access education they could only previously dream of.

This is why we proudly introduced ourselves as 'Edith Cowan University' when we first opened as a university in 1991.

Because we didn't just acquire Edith's name; we embraced her values and her vision. For example, we champion inclusion and equity — everyone is welcome here, however diverse their background.

We are also committed to gender equality at ECU, advancing this responsibility through our membership of the Athena SWAN Charter in Australia.

When someone becomes an ECU student, we support them through dedicated staff and systems, especially those experiencing personal or academic challenges.

Little wonder ECU is now an established Australian leader in the delivery of quality teaching, and the overall experience of our students — both domestic and international. Our 5-star rating for teaching quality has now prevailed for an impressive 17 straight years (Good Universities Guide 2008–2024).

ECU's mission is to transform lives, not only through high quality education, but also through impactful research.

Our research priorities are focussed on finding creative solutions to diverse global challenges, whether social, economic, physical or environmental.

Our mission will soon extend to transforming a city, as we open a new campus like no other.

ECU City will create new ways of learning and opportunities for students that Edith Cowan could never have imagined.

At Federation University Australia, we aim to make a real difference to the lives of every student who walks through our doors, and to the communities we help build and are proud to be part of.

Our modern approach to teaching and learning within our higher education and TAFE offerings makes us one of Australia's leading regional universities.

Today, Federation is proud to have a network of over 130,000 alumni across Australia and the world. Into our supportive, inclusive and thriving community, we welcome people from all backgrounds and cultures — this is reflected in our number one ranking in Australia for first-in-family enrolments since 2018 by the Good Universities Guide.

Federation is Australia's first co-operative university, getting students work and world ready through direct connection to employers and co-op experiential learning. Co-op means our students can succeed wherever they start on their study journey through a suite of courses co-designed, co-developed and co-delivered in partnership with industry.

Federation is currently offering Co-op degrees across Science, Engineering, Business, Arts, Education and IT, and Co-op will be embedded across the full suite of University and TAFE courses ready for delivery in 2026.

In the latest Quality Indicators for Learning and Teaching (QILT) Graduate Outcomes Survey, Federation University Australia is the highest-ranking University in Victoria — and second in Australia — for full-time postgraduate employment, and is second among Victorian universities for full-time undergraduate employment.

The research conducted at Federation University is classified as above world class in numerous disciplines including Biomedical and Clinical Sciences, Health Sciences, Engineering, and Biological Sciences and Federation is ranked by Times Higher Education (THE) in the top 401–500 Universities globally, and in the top 151–200 Young Universities in the world.

Flinders University is a bold innovator, an imaginative partner, and a progressive place to learn, research and thrive.

Ranked in the top two per cent of world universities, we are home to almost 26,000 students, over 2000 staff, and exceptional student experience.

Flinders is the place to be fearless.

An education trailblazer

Distinguished by establishing Australia's first medical course integrated into a hospital, Flinders today is a comprehensive university that offers more than 500 degree programs, including Australia's only undergraduate nuclear major.

A national leader in rural and remote health, Flinders delivers first-class medical, nursing and allied health education across regional South Australia and Northern Territory, including the NT's Doctor of Medicine.

Our pioneering approach to creativity and enterprise means every student has access to our award-winning Flinders New Venture Institute, ranked among the top university business accelerators in the world.

Solving wicked problems

Flinders is Australia's fastest growing research university, with our excellence reflected in 140% growth in external funding in the past five years.

Our research strengths cover a wide range of fields, from biomedical and clinical sciences, to defence, engineering, nursing, culture, policy and society, archaeology, health and human behaviour, molecular technology, water, and environment.

Brave and innovative

At Flinders, our intrepid approach to collaboration sets us apart. It's why we're the first university in Australia to form a partnership with a US Navy research centre.

Globally, we have over 100 partner institutions across 33 countries, and our 130,000 alumni are driving social and economic advances worldwide.

We are, as they say, fearless.

Griffith University is a world-class, values-led university. Its teaching and research prioritise innovation and social impact, reflecting its belief that everyone deserves a chance to make a difference — for themselves and others.

Ranking in the top 2 per cent of universities worldwide, Griffith consistently rates highly in several leading global indices including the Times Higher Education World University Rankings, QS University Rankings and more.

The University has been a national leader in teaching awards and citations for over a decade. Its experienced teachers deliver high-quality degrees designed to prepare students for the future, developed in consultation with industry, and based on cutting-edge research.

Social and environmental responsibility drive everything Griffith does, from pioneering teaching in modern Asian studies and environmental science to its long-time commitments to Aboriginal and Torres Strait Islander people, social justice and sustainable practices. Our work to create a more sustainable future has been recognised in the global top 100 by Times Higher Education since its inaugural Impact Rankings, which measure universities' progress towards the United Nations 17 Sustainable Development Goals.

James Cook University is unique among Australian universities, woven into the intellectual, economic and social fabric of its tropical locations.

JCU is defined by the tropics. Its main campuses are in the heart of the tropics – Cairns, Singapore and Townsville. The campuses are complemented and extended by regional and remote study centres and research stations. JCU's Australian campuses and field stations are located near the World Heritage-listed Great Barrier Reef Marine Park and the rainforests of the Wet Tropics region. This unique environment attracts students from around the world.

JCU plays a key role in preparing the professional workforce for northern Australia, and the university offers a comprehensive suite of professionally accredited programs including medicine, dentistry, pharmacy, physiotherapy, occupational therapy, speech therapy, veterinary sciences, psychology, nursing, sport and exercise science, engineering, law, education, and a range of programs in business, science, social science and humanities.

JCU is ranked among the world's top 400 universities (Academic Ranking of World Universities). The university has an international reputation for the quality of its teaching and research, with recognised strengths in environmental science and management; coral reef science, ecology and fisheries sciences; geology; evolutionary biology; organic and inorganic chemistry; oceanography; physical geography and environmental geoscience; medical microbiology, tropical health and medicine, vector-borne diseases; immunology; archaeology; and linguistics.

JCU is home to more than 20 major research centres and institutes, including The Cairns Institute and the Australian Institute of Tropical Health and Medicine.

LA TROBE
UNIVERSITY

For over 50 years, La Trobe University has been transforming people and societies.

Ranked in the top 250 universities worldwide, we're committed to delivering an outstanding student learning experience. We continue to innovate and expand our educational offerings with practical, real-world experiences in our courses through placements, work-integrated learning opportunities, and flexible study options with our StudyFlex™ model.

Our work in the areas of health, science and technology continues to set a high standard for how we partner with industry, with our ambitious University City of the Future and its core Research and Innovation Precinct, and the establishment of BioNTech's mRNA clinical-scale manufacturing facility, the launch of our Digital Innovation Hub and the completion of our Sports Park.

We're also addressing the major issues of our time. La Trobe's six major research themes reflect the United Nations' Sustainable Development Goals, with our high-impact research addressing some of the world's most pressing challenges, from food security and artificial intelligence to innovation in health and education. Proudly, all our broad areas of research are rated 'at', 'above' or 'well above world standard'.

Across all seven of our campuses, we're committed to ensuring our students, researchers and partners remain at the forefront of innovation and technology. We have an eye firmly set on the future and we're making real impact, today.

MACQUARIE
University
SYDNEY • AUSTRALIA

A university powered by human collaboration

Macquarie University is ranked among the top one per cent of universities in the world. Since our foundation 60 years ago, we've aspired to be a different type of university — one focused on fostering collaboration between students, academics, industry and society. Collectively, we're advancing world-class theoretical thinking and translating it into real-world solutions.

Where collaboration meets innovation

Macquarie's Wallumattagal Campus is uniquely located in the heart of Australia's largest innovation district. With more than 300 companies located around the campus, our 45,000 students can tap into career-boosting industry connections, while our 3000 staff can access research and innovation opportunities with world-leading organisations.

Expanding the frontiers of knowledge

Macquarie has an enviable reputation for research and teaching excellence. One hundred per cent of our research is rated at world standard or above; we're ranked among the top 10 universities in Australia in many research disciplines; and three of our subjects are ranked among the top 50 globally and six among the top 100.

A proud tradition of innovating

Macquarie has a robust record of innovation. We pioneered the technology that underpins wi-fi, developed the first synthetic funnel-web spider antivenom and designed a sterilisation technique to control fruit fly populations and strengthen Australian biosecurity. Today, we're focused on finding cures for motor neurone disease, Parkinson's disease and dementia.

Building successful graduates

Macquarie's pioneering approach to teaching and learning is built around a connected community: students are considered co-creators in their learning experience, while their degrees are linked to the latest research discoveries.

Situated on the unceded lands of the Wurundjeri Woi Wurrung, Bunurong, Yorta Yorta, and Dja Dja Wurrung peoples, the University of Melbourne is a place of discovery and enquiry. Our purpose is to benefit society through transformative education and research.

Established in 1853, it is one of Australia's oldest universities and the first in Victoria. Today, the University's vibrant community comprises over 53,000 students, including international students from more than 150 countries. Our students are supported by over 10,000 academic and professional staff, who play a vital role in fulfilling the University's mission. The diversity of experience, backgrounds and perspectives of all members of our community enriches the fabric of our University.

As a leading research-intensive university, our dual purposes of education and research are reflected in the experience we offer our students. Our educational approach encourages students to explore their passions and foster deep expertise in their chosen fields. We nurture a culture of curiosity and creativity, providing students with the opportunity to learn from academics and researchers at the forefront of their respective disciplines.

University of Melbourne graduates emerge as well-rounded, thoughtful and highly skilled professionals who make a positive impact across the globe. A network of more than 500,000 alumni around the world attests to the transformative impact of a University of Melbourne education.

With state-of-the-art facilities and a commitment to interdisciplinary collaboration, the University of Melbourne remains a driving force in shaping the future through impactful research. The University is embedded within world-class research and innovation precincts, and actively engages with communities and partners to help address major social, economic, health and environmental challenges.

The University's commitment to excellence has earned it its place among the world's best universities, delivering education and research that are global in reach, ambition and impact.

MONASH
University

Monash University is a modern, comprehensive, research-intensive university, delivering world-leading education and research for the benefit of communities in Australia and across the Indo-Pacific.

We create lasting global change by collaborating with universities, governments and industry through innovation and enterprise to advance new ideas and translate exciting technologies. Our strategic plan, *Impact 2030*, ensures we remain focused on our founding purpose of realising social and technological transformation to meet the challenges of the age — climate change, geopolitical security and thriving communities — for the aspiring communities and industries around us.

Arcing across the Indo-Pacific and the world, our global campus network across Australia, Malaysia, Indonesia, India, China and Italy affords us an unprecedented reach for our excellent research and education to transform lives and communities at scale.

We're committed to helping build a society that recognises, respects and includes Indigenous peoples, cultures and knowledge by working with and celebrating Aboriginal and Torres Strait Islander peoples, and Indigenous peoples of other places where Monash has a campus or major presence.

Our students stand out in the employment market because they have thrived in rich immersive experiences including international field work opportunities, volunteering, and experiences in industry and research translation. Students enjoy these experiences in an environment that is up close to groundbreaking research and innovation, and underpinned by an ethic of service.

Our reputation for education and research excellence ranks us in the world's top-50 universities in the QS World University Rankings 2025 (37th), US News and World Report Best Global Universities Rankings 2024-25 (35th), Times Higher Education Impact Rankings 2024 (32nd), and QS Sustainability Rankings 2024 (23rd). We are a founding member of Australia's Group of Eight, and a member of the Association of Pacific Rim Universities.

Since opening our doors in 1974, Murdoch University has been a university of difference. The second university in Western Australia, Murdoch was established on the lands of the Whadjuk and Binjareb Noongar people, the boodjar (country) having been a place of learning for thousands of years — we are proud to continue this tradition.

Our new strategy, Ngala kwop biddi: Building a brighter future, together, reaffirmed our purpose, focusing on three strategic themes: Sustainability; Equity, Diversity and Inclusion; and First Nations.

Although the challenges facing our world are considerable, Murdoch is ideally placed to contribute to solutions, while enabling our students and staff to realise their full potential.

This commitment also extends within, as we take action to achieve a truly sustainable campus with targets for carbon neutrality across our operations, zero per cent waste to landfill, and a net zero transport plan by 2030.

Murdoch's flagship location in Perth is one of the largest urban campuses in Australia, boasting a working farm and a vast expanse of natural bushland teeming with unique wildlife.

At the heart of the campus is Boola Katitjin, a dynamic teaching space that combines modern, sustainable design and digital technology, where students, teachers, and industry can learn, collaborate and socialise.

In Perth's southern corridor, Murdoch's Mandurah campus is home to nursing degrees taught in state-of-the-art simulation suites, and our Rockingham campus hosts our pro bono law clinic and some of our successful enabling programs.

Our international campuses in Singapore and Dubai deliver a range of undergraduate and postgraduate courses from vibrant, state-of-the-art facilities.

Across the entire university, our shared purpose is to change lives and society for the better through accessible education and research, contributing to the solution of societal and environmental challenges and providing an inclusive, caring community in which everyone can realise their potential.

Future fit your life

Established on 1 February 1954, the University of New England (UNE) is Australia's first regional university. Under the leadership of its first Vice-Chancellor, Sir Robert Madgwick, UNE became a pioneer in distance education, creating opportunities for students who might otherwise have missed out on higher education.

Today, more than 85 per cent of UNE students study online. With campuses in Armidale, Tamworth (under construction), Taree, and Western Sydney, along with eight regional study centres, UNE provides flexible learning options that fit students' specific needs wherever they are.

Unmatched student experience

For 18 years and counting, UNE has achieved a five-star rating for overall student experience in *The Good Universities Guide* — a distinction unmatched by any other Australian public university.

Students can choose from a wide range of courses in the arts, humanities, education, health, business, law, medicine, sciences, agriculture, and environmental studies. UNE's tailored programs enable working adults to design degrees that align with their professional goals.

UNE's six colleges offer students a vibrant residential experience with options from catered college rooms to independent apartment-style accommodation.

Industry-focused research

UNE is internationally recognised for its research in animal genetics, rural sciences, mathematics, agribusiness, law, social sciences, and health. This reputation, built on strong connections with industry, government and international stakeholders, underpins our goal of equipping individuals, communities, and partners to tackle the economic, social, and environmental challenges and opportunities that lie ahead.

UNSW Sydney is a world-leading university, known for driving progress that benefits all. It's a place for those who see problems as opportunities, and for students, teachers and researchers who aspire to excellence with an entrepreneurial spirit. We rank among the top 20 universities worldwide* with more than 70,000 students and a 7,800+ strong research community.

Progress for all

At UNSW, we are determined to leave our world better than we found it. UNSW has an international reputation for impact: from increasing access to renewable energy, advancing healthcare for all, expanding opportunities for the vulnerable, increasing access to education for underrepresented communities and supporting career success. UNSW placed equal 11th globally and third in Australia in the 2024 QS World University Sustainability Rankings.

Future-focused graduates

UNSW is dedicated to helping tomorrow's leaders unlock their unique potential, channelling knowledge, skills and passion into careers with purpose. UNSW graduates are among the most employable in the world and we are number one in Australia for alumni employment outcomes*. With a strong culture of entrepreneurship, UNSW's Founders Accelerators program supports more than 300 start-ups and provides entrepreneurial skills training to more than 5,000 individuals each year.

Robust international networks

UNSW fosters the brightest minds from Australia and right around the world. We are proud of our national and international networks, which through collaboration, enable us to tackle global problems and create change far beyond the boundaries of our campus. UNSW is a founding member of the Group of Eight, a coalition of Australia's leading research-intensive universities, and the prestigious Universitas21 international association.

The main UNSW campus is in Kensington, seven kilometres from the Sydney CBD and close to some of Sydney's iconic beaches. Other major campuses are the Art & Design campus in Paddington and UNSW Canberra at the Australian Defence Force Academy. We also have a presence throughout Greater Sydney, including the Parramatta Engineering Innovation Hub and the School of Clinical Medicine at Liverpool.

*2024 QS World University Rankings

At the University of Newcastle, we are dedicated to being a world-leading institution, profoundly impacting our regions and providing an outstanding student experience. In the top 1% of universities in the world, we are proudly a university of our regions and for our regions.

Exceptional student experience

Our dynamic campuses across Newcastle, the Central Coast, Sydney and Singapore are vibrant hubs for learning, socialising and collaboration. These welcoming environments are purpose built to inspire our more than 37,000 students and our staff to make a difference. We take pride in delivering an outstanding experience for every student, with career-ready placements as an integral component of all degrees. The opportunity to work with industry means our graduates are not only job ready, but also life ready.

Foundation of equity and excellence

We believe that every student deserves the support to succeed, no matter their background or circumstance. With a strong commitment to enhancing education and employment opportunities for Aboriginal and Torres Strait Islander peoples, our University is the sector leader in Indigenous student enrolments and employment of Indigenous staff. As Australia's largest provider of enabling programs, we have offered a wide range of alternative entry pathways for a diverse range of students over the last 50 years. Our commitment to creating a place for all is fundamental to how we teach, research, collaborate with industry partners and local communities, and engage with our staff and students.

Better connected

We focus our research efforts on areas that are important to our communities and our partners, including: energy and renewables, health and medical research, regional transformation, resource sustainability, and the role of education in creating strong communities. From developing innovative solutions to the world's greatest challenges, to producing life-ready graduates who drive positive global change, the University of Newcastle stands as a beacon of excellence. When you study, work, or collaborate with us, you join a prestigious global network committed to making the world a better place.

THE UNIVERSITY OF
NOTRE DAME
A U S T R A L I A

The University of Notre Dame Australia is a national Catholic university with campuses in Fremantle, Broome and Sydney, serving more than 12,000 students. The University's School of Medicine has eight clinical schools in Sydney, Melbourne, and rural New South Wales and Victoria.

Notre Dame offers a wide range of undergraduate, postgraduate and research degrees across three faculties — Arts, Sciences, Law and Business; Education, Philosophy and Theology; and Medicine, Nursing, Midwifery and Health Sciences.

The University provides excellent standards of teaching, scholarship, professional training and research with established networks in healthcare, education and social services. It has developed a solid platform of research engagement across four principal research institutes: the Institute for Ethics & Society in Sydney, the Centre for the History of Philosophy in Sydney, the Institute for Health Research in Fremantle and the Nulungu Research Institute based in Broome.

Notre Dame offers a distinctive, holistic approach, with an emphasis on career-focused education, combining academic knowledge with practical workplace experience and a foundation in ethics. This approach ensures graduates are job-ready, equipped with critical thinking skills, courage and confidence to contribute to the common good.

Notre Dame empowers students to be adaptive to the challenges of ever-changing work environments by encouraging them to view the world from a new perspective. This approach ensures Notre Dame graduate employment outcomes are among the best in Australia.

In 2021, Notre Dame gained Table A status, increasing student access to vital government funding, including CSPs and HEPPP. The University was also recently awarded five stars for learner engagement, skills development, graduate salary, and full-time employment in the *Good Universities Guide 2024* for both undergraduate and postgraduate categories.

**THE UNIVERSITY
OF QUEENSLAND**
AUSTRALIA

The University of Queensland (UQ) is one of Australia's leading teaching and research universities and is a global top 50 university. In the QS World University Rankings 2025, UQ ranked 40th in the world. UQ's main campus is located in Brisbane, host city of the 2032 Olympic and Paralympic Games.

Teaching

UQ has won more national teaching awards than any other Australian university, including Australian University Teacher of the Year several times. More than 55,000 students – including 21,500 international from 141 countries and 20,000 postgraduate students – study with UQ. Students can choose from more than 348 programs on offer, many with work integrated learning opportunities. Through our engaged alumni and industry partnerships, our students also have the opportunity to build networks and access internships.

Research

UQ has more than 2,500 academics and researchers and around 3,400 active research projects, seeking solutions to the world's biggest challenges and opportunities. Our researchers are the leading recipients of Australian Research Council fellowships and awards nationally. In 2023, UQ had the equal highest number of Highly Cited Researcher awards of any Australian university. UQ is a leader in research commercialisation in Australasia and the leading university in Australia for active startups.

Community

UQ has a global community of 332,000 graduates from 184 countries and 450+ partners across the globe. This strong global network is key to our commitment of delivering for the public good through excellence in education, research and engagement with our communities – both locally and globally.

QUT is a major Australian university with a global reputation and a real-world focus. Our courses equip students and graduates with the skills and mindset they need to realise their full potential in a rapidly changing world.

We are an ambitious institution, providing transformative research relevant to local communities as well as international markets.

With more than 50,000 students across two inner-city campuses in Brisbane, QUT offers academic programs in fields spanning business, creative industries, education, engineering, health, law, science, and social justice.

We are positioned as 'the university for the real world' and are committed to embedding sustainability, a connection to Country and the well-being of students and staff in everything we do.

QUT is establishing itself as the leader in Indigenous Australian higher education. The establishment of the Faculty of Indigenous Knowledges and Culture provides increased opportunity for all students from throughout Australia to study Indigenous knowledges and culture alongside all other specialty programs.

We are transforming the learning experience, supporting students through work-integrated learning and focusing on developing entrepreneurial skills. We offer executive education and professional development, flexible learning through QUT Online, and pathways into our undergraduate programs through QUT College.

From 2025, all commencing undergraduate students will have the opportunity to experience QUT You — this curriculum will prepare students for real-world careers that are impacted by complex local and global challenges, from artificial intelligence to climate change, health epidemics, data and food security, and geopolitical unrest.

QUT is well-known for our strong links to industry and government, and our inter-disciplinary teams create high-impact research in diverse areas, from climate change mitigation, water management and materials science, to digital media, renewable energy and biomedical innovation.

RMIT is an international university of technology, design and enterprise with more than 90,000 students and over 11,000 staff globally.

We empower people and communities to adapt and thrive across generations, with education, research and civic engagement that are applied, inclusive and impactful. Postgraduate, undergraduate, vocational education, foundation studies and online programs offer students a variety of work-relevant pathways.

Our three substantial campuses in Melbourne are located in the City, Brunswick and Bundoora, along with other Victorian locations. We also have two campuses (Saigon South and Hanoi) and an English language centre in Vietnam and a research and innovation hub in Spain. In addition, programs are offered through partners in Singapore, Hong Kong, Sri Lanka, Indonesia, India and China, with research and industry partnerships across the globe.

We continue to consolidate our international reputation and now rank equal 123rd in the QS World University Rankings, fifth in the Times Higher Education (THE) Impact Rankings and in the 251–300 band of THE World University Rankings. Strong industry connections, forged over 137 years, remain integral to RMIT's leadership in education, applied and innovative research, and to the development of our graduates as skilled global citizens. This is why our alumni community is known for being highly employable and ready to adapt in complex times.

Alongside industry-relevance, creativity and inclusivity are hallmarks of an RMIT education. Our diverse global community of more than 500,000 graduates live, work and contribute in more than 150 countries around the world. Recognising that education is lifelong, many also return throughout their careers to refresh and update their skills or change career direction altogether.

As a collective and as individuals, we commit to respectful ways of working and understanding that acknowledge the experiences, history and knowledge of Aboriginal and Torres Strait Islander peoples. We actively strengthen relationships between Indigenous and non-Indigenous peoples for the benefit of all Australians and the communities in which RMIT operates.

University of
South Australia

The University of South Australia (UniSA) is a place for unstoppable people. We're one of the world's best young universities, recognised internationally for educational excellence, industry engagement and a strong commitment to social equity.

UniSA is South Australia's leading university for student satisfaction, teaching quality and graduate skills — and we are Australia's number one university for graduate employability. We're preparing tomorrow's professionals today, through degrees that are designed in partnership with industry, combining innovative teaching, real-world experience, and modern, flexible study options.

We offer programs across in-demand, emerging areas, such as allied health, education technology, digital business, space and defence, visual effects, and creative industries. Our curriculum provides students with the skills they need to grasp the opportunities of today — and ensures they have the ingenuity and resilience they need to meet the challenges of tomorrow.

The experiences and knowledge that we provide our graduates draw from our collaborations with more than 2500 companies worldwide. Our researchers partner with end-users to shape the questions we ask, producing world-class research with real impact and social relevance.

And we extend that spirit of collaboration and engagement to the wider community — our mission is to make knowledge accessible to everyone. UniSA is home to Australia's first future-oriented museum, MOD., one of the nation's leading art galleries, the Samstag Museum of Art, and the nationally renowned public outreach institution, the Bob Hawke Prime Ministerial Centre.

UniSA is committed to building a better future. We are Australia's University of Enterprise.

Adelaide University

From 2026, we will begin a new chapter as we combine our strengths and legacies with the University of South Australia to become Australia's new for-purpose university, Adelaide University. Contemporary and comprehensive, this is a new university for the future that will transform education, student experience, research and innovation with impact that will transcend borders around the world.

At Southern Cross University, we are driven by a clear purpose: to change lives through revolutionary learning and research with real impact.

Our game-changing Southern Cross Model is focused on deeper, more immersive learning and increased student success. The Model is an integral part of our diverse academic portfolio, with courses in Business, Education, Engineering, Health, Indigenous Knowledge, Information Technology, Law, Science, Social Work, Tourism and Animal Health.

The University has outstanding facilities located in stunning natural environments. Established in 1994, Southern Cross University now boasts three main campuses in the Northern Rivers, at the Gold Coast and in Coffs Harbour where the University's National Marine Science Centre is also located.

The University has metro campuses in Sydney, Melbourne and Perth and the University's Hotel School has campuses in Sydney, Melbourne and Brisbane. Our graduates, who number more than 80,000, live and work in locations around the world.

We were the first university in Australia to introduce a degree in tourism and a Naturopathy Clinic on campus. We continue to break new ground with world-leading research activity in fields like coral reproduction, biogeochemistry and agriculture, producing knowledge that has an impact not just in the regions where the University is located, but all over the world. Together, we are Transforming Tomorrow.

University of
**Southern
Queensland**

The University of Southern Queensland is where students, researchers, community, and partners access excellence. We are home to some of the most vibrant hubs of education and research innovation in the world. We continue to lead the nation in graduate starting salary outcomes. At UniSQ, we offer a supportive environment and student-focused commitment to learning and teaching, providing education worldwide — from Toowoomba, Springfield and Ipswich — with an extensive online presence.

By offering a mix of open and flexible programs in business, education, law, arts, health, engineering, surveying, agriculture, and sciences (including paramedicine and aviation), UniSQ meets the educational needs of students, industries, and communities all over the world. Our research is a catalyst for industry growth, community prosperity and wellbeing through focused, high-quality research and research training. Researchers work directly with local communities, industry, and international partners to form strong and enduring partnerships that deliver tangible benefits and real impact.

World-class research institutes, centres, and faculties are home to unique state-of-the-art facilities — like the Mount Kent Observatory, Queensland's only professional astronomical research facility — which enable our researchers to deliver a broad range of research outcomes across multiple disciplines. Our research services industry needs in the University's flagship areas of space and defence, agriculture, health, and regional development.

At the University of Southern Queensland, we are committed to solving problems that matter, developing local solutions to global challenges. UniSQ researchers lead the way in next-generation innovation to inspire our future-focused students.

University of the
Sunshine Coast
Australia

The University of the Sunshine Coast (UniSC) is a young, ambitious university driven by the belief that community and culture is just as important as a world-class education.

Our youth has allowed us to foster a dynamic, progressive environment where we push the boundaries of research, champion sustainability, and produce gold-winning athletes and award-winning alumni.

We've grown exponentially since 1996, with award-winning facilities spanning five campuses along the South East coast of Queensland and our newest campus in Adelaide which opened in 2024.

Our campus footprint allows us to remove barriers to education for thousands of first-in-family and mature-age students. At UniSC, our students are supported to succeed. Among public universities in Queensland we are ranked first for overall undergraduate educational experience, and second for overall postgraduate educational experience. Underpinning this is excellent teaching and industry connections. We have a five-star rating for teaching and our students graduate work-ready through hands-on learning across over 150 programs.

We're the world's only university operating within three UNESCO Biosphere Reserves and a UNESCO World Heritage Site, which grants us a unique opportunity to work collaboratively with local leaders and communities on research, teaching and education projects to protect and enhance these areas of international significance.

In the 2024 Times Higher Education (THE) Impact Rankings, UniSC is the top ranked Queensland university, and first in Queensland for 'Climate Action' and 'Zero Hunger'.

We're tackling some of today's most pressing issues through research that focuses on ensuring healthier people, and a healthier planet.

We're bringing about real impact and positive change through learning, teaching and research that helps move everyone forward.

At UniSC, we don't just look towards tomorrow. We lead the way to creating a better tomorrow.

Swinburne University of Technology is a dual-sector institution, defined and inspired by technology and innovation, and renowned for strong industry and community engagement. With a vision of people and technology working together to build a better world, our people are driven by a shared purpose: to create tomorrow's technology and the human capital and talent required for a digital, tech-rich future.

We are building Swinburne as the prototype of a new and different university — one that is truly of technology, innovation and entrepreneurship. Our researchers are collaborating with industry, communities and government to co-create the technology solutions our world needs.

Swinburne is ranked in the top 300 of universities worldwide, as well as in the top 25 young universities under 50 years old in prestigious global rankings.

We have an esteemed reputation for world-leading research in astronomy, physics, engineering, materials science, computer science and information technology, design and innovation, health sciences, neurosciences and mental health.

As part of our Horizon 2025 strategic plan, we are injecting significant research investment into six flagship areas: Space and Aerospace Technology; Innovative Planet — smart sustainability solutions; Medical Technology; Innovative Society; Digital Capability; and Manufacturing Futures.

In Australia, Swinburne has three Melbourne campuses offering tertiary education for Higher Education and Vocational Education and Training. Internationally, Swinburne has a campus in Sarawak, Malaysia, and a number of teaching partnerships in other international locations. Swinburne is also a leader in online learning through Swinburne Online.

SYDNEY

The University of Sydney is one of the world's leading, comprehensive research and teaching universities.

We offer an exceptional range of disciplines — more than 400 areas of study — and our community includes more than 74,000 students and 440,000 alumni in more than 170 countries.

Leadership for good

Leadership has always been at the core of our values. We were one of the first universities in the world to admit students solely on academic merit, and to open our doors to women on the same basis as men. Our aim is to make lives better not just by producing leaders of society, but through equipping our people with the qualities that allow them to serve all of our communities at every level.

Australia's first university

In creating the first university in Australia in 1850, our founders recognised the power of education to inspire positive change. We hold that belief just as strongly today. Currently ranked 18th in the world and 2nd in Australia in the QS World University Rankings, the University of Sydney is consistently ranked among the top universities in the world.

Bringing brilliant minds together

We partner across industry, government, non-profit and community sectors to answer the biggest questions facing society, business and our communities.

A university for Tasmania, from Tasmania

Our mission is to improve the lives of Tasmanians and care for our island home. But we also look outward to help meet the world's challenges from our unique vantage point here in Tasmania.

The Aboriginal people of lutruwita/Tasmania stewarded the island sustainably for tens of thousands of years and we seek to build a future together with them. Our aim is to see Tasmania become a model for a more sustainable world.

Our difference

Home to both pristine wilderness and vibrant cities, Tasmania is a very special place. Our island informs our teaching, our research, and our unique ways of thinking. We have a distinctive culture that produces thinkers, writers, artists, and musicians, whose influence is felt around the globe.

Our location also gives us unique research strengths with access to extraordinary wilderness on land, at sea and in the Antarctic, and with some of the finest agricultural land and most diverse geologies in the world. With a proud maritime heritage, we continue to train the nation's seafarers and design the next generation of vessels for above and below the seas. Having an unrivalled vantage of the Southern skies, we do unique work in astronomy and astrophysics.

Our students

At the University of Tasmania, we commit to making our students more than a number, and the island our campus. Through our dedicated teaching staff and class sizes, everyone gets the support they need to thrive. We also offer scholarships and pathways to nurture each individual learning journey.

The University of Technology Sydney (UTS) is a leading public university of technology recognised for their global impact.

The university is considered among the top universities in the world by both the QS (88th) and Times Higher Education (154th) global rankings. It is also the top-ranked young university in Australia (Times Higher Education Young University Rankings 2024).

UTS is known for advancing knowledge and learning through research-inspired teaching, research with impact and partnerships with industry, business, government and the community. UTS is driven by a deep commitment to prepare and support graduates to succeed in the future workforce, drive innovation and entrepreneurship, support open and rigorous public debate and deliver excellent, impactful research.

As the world and future of work changes, the university is commitment to building on their reputation for a fusion of innovation, creativity and technology: those characteristics that make UTS and their graduates sought after by global industry.

UTS research spans a range of disciplines, including architecture, built environment, business, communication, design, education, engineering, information technology, artificial intelligence, law, midwifery, nursing and science.

As a public purpose institution, UTS is committed to supporting positive social change within and beyond their campus. This commitment is reflected by a diverse set of institution-wide social justice initiatives that have only expanded in scope and impact since UTS was established.

Victoria University (VU) has championed a culture of equity and excellence in education, training, research, and engagement for more than a century.

VU is ranked in the top two per cent of universities in the Times Higher Education (THE) World University Rankings 2025 and top six per cent in the THE Impact Rankings 2022.

Doing dual differently

In 2018, VU introduced the revolutionary VU Block Model of teaching and learning – an Australian first. This model allows students to focus on one subject at a time over four weeks, providing personalised learning in smaller classes. Results show significantly improved pass rates and grades.

As one of only six Australian universities to offer both TAFE and Higher Education, we are uniquely positioned to offer flexible, concurrent and complementary studies – bringing together a range of offerings.

Research with impact

VU researchers have an unyielding focus on real-world research, generating positive solutions for people, place and planet. Done in partnership and collaboration, VU's strengths lie in sport, health and active living, and sustainable industries and liveable cities.

Industry-leading partners

Ethical partnering is at the core of what VU does. Strong alliances with regional organisations like Western Health and the Western Bulldogs and more than 4,000 partnerships provide industry-immersed learning experiences and research collaboration to benefit local communities.

A place of opportunity and diversity

VU is a place where aspirations are realised, enabling students around the world to start well and finish brilliantly. Over 40,000 students from over 90 countries study onshore at VU's eight campuses and 5,400 study at the University's international partner institutions.

Proudly, 51 per cent of students are first-generation – at VU, education comes with opportunity and success.

THE UNIVERSITY OF
**WESTERN
AUSTRALIA**

Since 1911, The University of Western Australia (UWA) has blazed a trail in producing remarkable and life-changing contributions across learning, teaching and research.

Our industry connections, innovative courses, commitment to student experience and high-impact research place UWA as the only World Top 100 university (QS 2025) in WA.

Situated on the Swan River, near Perth's vibrant CBD, our main Crawley campus is home to more than 28,000 students with almost 8,000 international students from 117 countries.

The workforce of the future

Ranked first in WA for graduate employability (QS Graduate Employability Ranking 2025), UWA produces highly employable graduates who forge long and successful careers. Working with industry partners on real challenges, and taking on networking opportunities, work placements and internships, our students gain the skills, knowledge and connections to kick-start their career.

World-class research

Our researchers partner with industry and communities to tackle some of the world's most complex problems. We have key strengths in mining engineering, marine and ocean engineering, environmental science, biological science and agricultural science. As a member of the Group of Eight and the Matariki Network of Universities, UWA is globally recognised as a leading research-intensive university, contributing to the world's intellectual, cultural and economic development.

Serving our community

Creating, applying and sharing knowledge to make a positive impact is at the heart of what we do at UWA. Our vibrant campus is an arts and culture hub, and through our students, research and partnerships with sporting, business, arts and charity organisations, we're improving the lives of those in our communities.

WESTERN SYDNEY UNIVERSITY

Western Sydney University is student-focused and research-led, located in Australia's fastest growing, most economically significant region – Western Sydney.

With campuses throughout Australia's global city as well as internationally, we have more than 50,000 students currently studying and over 200,000 alumni making their mark locally and across the globe.

Global impact. Unlimited Opportunities.

We have been named number one in the world in the 2024 Times Higher Education (THE) University Impact Rankings for an unprecedented third year in a row.

We topped the overall impact ranking against more than 1,900 institutions for our work tackling issues like sustainability, climate action, equality, inclusivity and social justice.

The University has also welcomed the first students to our new Indonesia campus in 2024. Located in Surabaya – a key economic hub in Indonesia – the new campus further strengthens our commitment to providing high-quality education on a global scale.

Future-focused teaching and learning

We put students at the heart of everything we do. With 65 per cent of our students being the first in their family to attend university, we're committed to providing them with an exceptional learning experience.

Our innovative teaching and learning bring together students, staff and external partners to co-create courses that prepare students for employment success in the 21st century.

Commitment to our region

We continue to work in partnership with industry, government and higher education providers, embedding the university in the economic and civic life of the Western Sydney region.

With world-class and technology-rich vertical campuses in Western Sydney growth centres – Parramatta, Westmead, Liverpool and Bankstown CBD – we have also launched Fairfield Connect, a cutting-edge study hub that supports students and the community of Western Sydney and enhances accessibility to higher education.

UNIVERSITY
OF WOLLONGONG
AUSTRALIA

At the University of Wollongong (UOW), we're proud to be among the best modern universities in the world. We're ranked in the world's top 200 universities and equal 44th in the world for economic impact in the global THE Impact rankings, which benchmarks universities against the United Nations Sustainable Development Goals.

UOW has a network of nine Australian campuses and according to the QILT Employer Satisfaction Survey (2023) 86% of employers are overall satisfied with UOW graduates.

Our vision is to inspire a better future through education, research, and partnership. Three goals drive us towards our purpose: empowering students for their future, creating knowledge for a better world and making a difference for our communities.

UOW has a strong international focus and reputation, delivering world-class teaching to approximately 7,700 students globally, including at our campuses in the United Arab Emirates, Hong Kong and Malaysia, and teaching locations in China, Singapore and soon to be, India.

This year UOW celebrated 30 years of operations in Dubai, and in November 2024 will officially open its new UOW India campus in GIFT City.

In 2025, UOW will celebrate its 50th Anniversary, marking its significant contributions in teaching, research, and academic excellence over five decades.

UOW's newest research facility, Molecular Horizons, is at the forefront of scientific discovery, unlocking the innermost secrets of the living cell and developing new ways to detect and attack disease. Molecular Horizons is dedicated to illuminating how life works at a molecular level and solving some of the world's biggest health challenges.
