

# Universities Involvement in Lifelong Learning

Preparing for Change

Why Me?

Why Now?

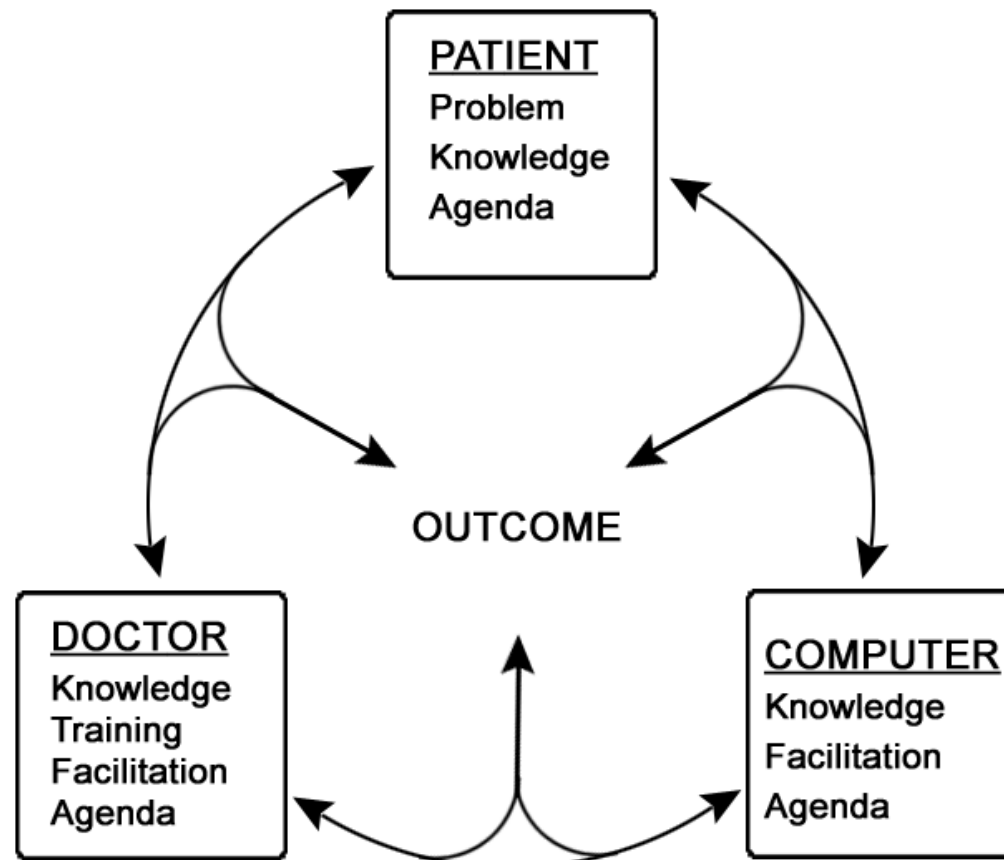

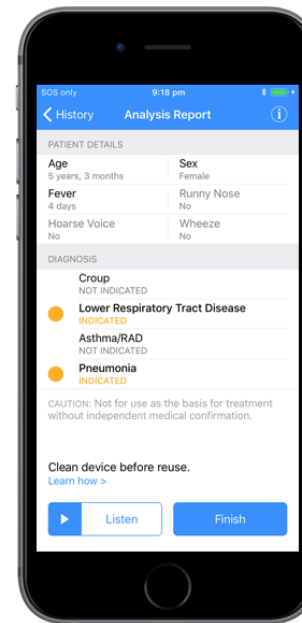

# Example 1

## Instantly diagnose and manage respiratory disease using only a smartphone.

We provide point of care diagnostic solutions for telehealth that are easily integrated into existing platforms. We are working on apps to provide instant clinical quality diagnostic tests and management tools directly to consumers and healthcare providers.

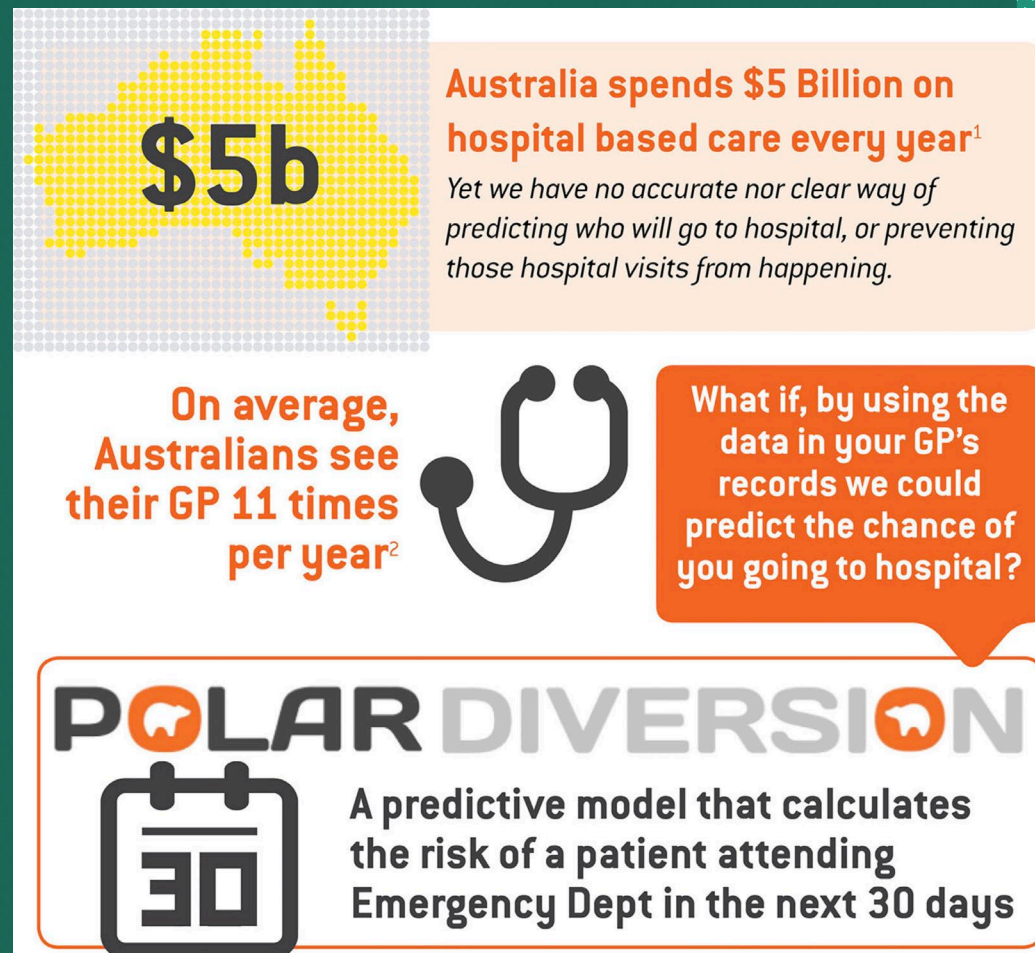

ResAppDx is CE Marked in Europe and ARTG Listed in Australia.

[See how ResApp improves telehealth >](#)

# Example 2

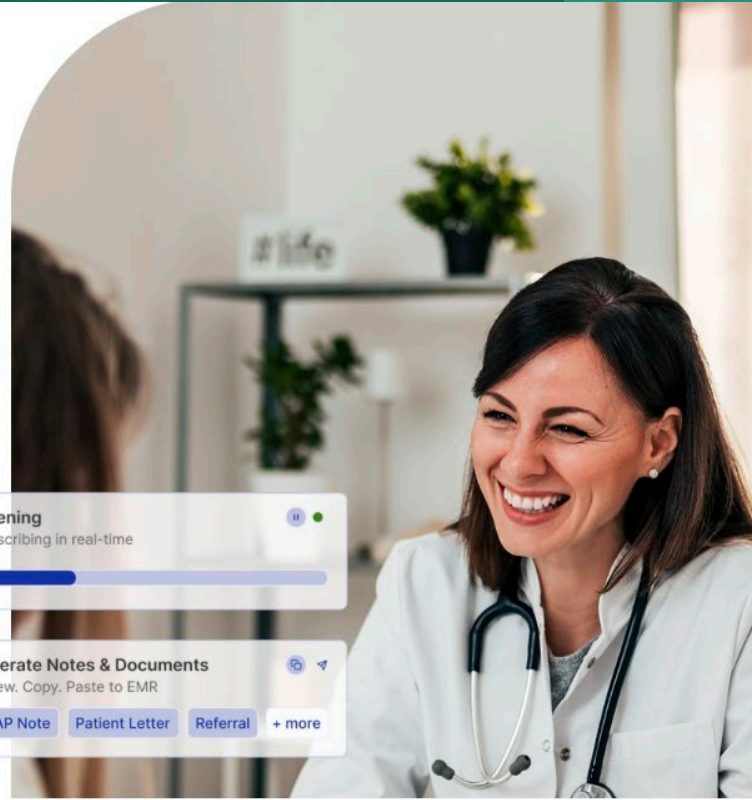

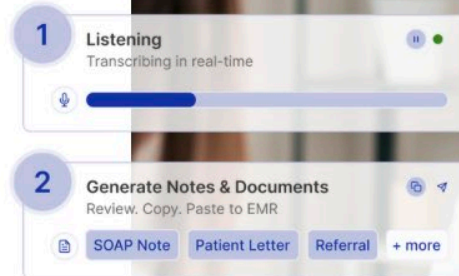

# Example 3

## Empower yourself. AI medical scribe.

Lyrebird Health **securely** and **reliably** writes your notes, documents, and assessments - so you don't have to.

Get started - it's free
